

DGFI AKKI Satellite Symposium at the ECI2024

“German Society for Immunology (DGFI) Working Group for Clinical Immunology (AKKI)”

1st of September 2024

9 am to 12 am with coffee brake at 10:30 am

Ladies and Gentlemen,

The German Society for Immunology (DGFI) Working Group for Clinical Immunology (AKKI) holds its annual meeting 2024 as part of the 7th European Congress of Immunology, which takes place in Dublin from September 1st to 4th 2024.

This orientation of the AKKI annual meeting on the one hand takes into account the increasing importance of clinical immunology for scientific immunology. This is because the interest of scientific immunology in clinical immunology has grown, since basic research on human samples due to new analysis technologies now is leading directly to fascinating insights into human immunology. On the other hand, the interest of therapeutic medicine and clinical immunology into scientific immunology has grown, since new therapeutic options such as small molecules, monoclonals and CAR-T cells are available. Thus, immune-mediated diseases can be treated, but also numerous immunological main and side effects occur that warrant further research.

9:00 – 9:15	Welcome address and opening remarks – Fabian Hauck, spokesperson AKKI
9:15 – 10:00	Jochen Kalden-Homage and Lecture – Nucleic acid immunity and its relevance for clinical immunology – Gunther Hartmann
10:00 - 10:15	Best selected abstract 1
10:15 – 10:30	Best elected abstract 2
10:30 – 11:00	Coffee break
11:00 – 11:30	JAK inhibitor treatment for inborn errors of JAK/STAT-signaling – Carsten Speckmann
11:30 – 11:45	Best selected abstract 3
11:45 – 12:00	Best selected abstract 4

Fabian Hauck, MD, PhD

Spokesperson AKKI

Ricardo Grieshaber-Bouyer, MD

Deputy Spokesperson AKKI
